From Dickinson to Waukegan is a big stride towards reform in the post-office department. The business of that branch of the government will hereafter be run on business principles.—Philadelphia Press.

Democratic financing shows the same ear-marks in Indiana that it exhibits everywhere else. Since 1882, the cash in the treasury of that state has decreased from nearly \$700,000 to about \$25,000, while the state debt has increased from \$971,825 to \$2,381,000; and, worse than all, a new loan of over \$2,000,000 will be needed to meet the expenses of the next two years. Bourbon rule is a costly luxury to the Indians.—Blade.

It is a fact worth noting that, if the democratic papers are to be believed, it is always democratic voters who are ready to be bought. Editorials have appeared in all democratic papers of any importance, since the November election charging the republican party with buying votes. If the democratic party really be made up of men ready to sell their votes, it is the best possible argument against entrusting the party with power.—Blade.

Advices just received from Samoa show that there was no basis for the sensational rumor of an engagement between the United States man-of-war Nipsic and the German corvette Olga. Far from this, the German officials in the island have entirely given up their aggressive policy. Unusual tranquility prevails throughout the island. Mataafa, however, has a force of troops estimated to be 4,000 strong. Tammessee's army consists of about 700 men. The men of war, German, American and English, still remain at Apia, ready for any emergency that may arise.

It is not to be lost sight of that General Goff, the republican candidate for governor of West Virginia, was elected upon the face of the returns. This important fact renders all the democratic efforts to keep him out of office, except by contesting his election, irregular, disorganizing and disgraceful. The legislature refused to declare who has been chosen, as it legally should have done, and here we have a strong presumptive evidence that the democratic claim, that General Goff was elected by fraud cannot be sustained. General Goff is not a man to relinquish any of his rights in this matter. All the complications that may ensue are directly traceable to the course of the democratic party.—Blade.

It is doubtful if any inaugural address ever spoken in Washington met with such a general chorus of praise as greets President Harrison's address. The commendation comes from democratic and independent newspapers, as well as from republican sources. A document must be of a high order of merit to receive such generous applause. There are, it is true, a few organs that endeavor to pick flaws, but as these were doubtless inspired by what the New York Post calls the "average editor" and the "ignorant editor," they can be allowed to vent their spleen in silence. Gen. Harrison spoke to the intelligent, conservative, common sense people of the country, and those that listened were not disappointed in his words. No stronger proof could be given that they are satisfied with his utterances than the fact that even responsible political opponents could not find room for capering.—Philadelphia Press.

Does it seem possible that only one hundred years ago, when Washington was inaugurated in New York the first President of the United States, that the city was then a small, sixty-times smaller than at the present day, or having only about thirty thousand inhabitants? How New York City looked at that time, and the costumes of the residents, are graphically told and beautifully illustrated in THE WEST'S MONTHLY MAGAZINE for April, which has just arrived. At this time, when the Centennial of the inauguration of Washington is about to be celebrated, will be greatly appreciated, and those who purchase the April number of this popular magazine will be repaid, not only this, but by numerous other attractions, not the least of which are the beautifully illustrated article on "Birds," by Olive Thorne Miller; "Young Japan at Play," which will give many hints to the children for new games; "Homes with Two Berwicks," which contains suggestions for the management of servants; and there are numerous other equally interesting subjects. Published by W. JENNINGS DEMOREST, 15 East 14th Street, New York.

WASHINGTON LETTER

[From Our Regular Correspondent.]

WASHINGTON, Mar. 15, '89.

Gen. Harrison's second week in the White House differs little from the first; there is daily the same crowd of office-seekers and their backers, up stairs in the executive office, and down in the East Room those that call merely to pay their respects. Only a few appointments have as yet been made, owing largely to the difficulty of reconciling the conflicting claims of the many applicants, but those that have been made seem to have given general satisfaction to the party leaders here, and have been promptly confirmed by the Senate.

The president has signed an order extending the time within which the Railway Mail Service shall be brought under the operation of the civil service law, from March 15, to May 1, '89. The extension was made at the request of Civil Service Commissioner Lyman, who says the time asked for was necessary. Postmaster-General Waukegan will doubtless take advantage of the extension to rid the service of hundreds of incompetent men that are now in it.

It has been a long time since family prayers were held every morning in the White House, but they were begun with Gen. Harrison's first morning, and will be continued as long as he remains there.

Senator Stewart's resolution for the purchase for coinage of \$4,000,000 silver bullion per month was again offered, but was laid on the table.

The Senate Committee on Pacific Railroads will start for Chicago April 6, on a tour of inspection over those roads. The trip is expected to take about seven weeks. The members of the committee are Senators Frye, Dawes, Hisscock, Davis, Morgan, Butler and Hearst.

Senator Quay received over fifty registered letters, all containing applications for office in one day; this week, and his republican colleagues are but little behind him in their mail matter. Surely everybody cannot hold office, not at one time anyway, therefore brethren, why would not this be a good time to stop writing to your member, or Senator. He will get everything he can for his constituents, but as industrious as he may be he cannot accomplish impossibilities.

Might this be called a case of bribery? Inter-state Commerce Commissioner Walker, whose salary from Uncle Sam is only \$7,500 a year, has been enforcing the law against some of the big railroads in a manner that was not at all to their liking. The aforesaid big railroads have formed an association, and have employed Commissioner Walker for three years at a salary of \$25,000 a year. The question very naturally arises, did the railroads agree to pay this \$75,000 in order to obtain Mr. Walker's services, or do they propose paying it to get Mr. Walker off of the board of Inter-state Commerce Commissioners? It is a large sum of money, and the railroads expect to get even in some way, or they would not offer to pay it. It is just such episodes as this that cause the number of people who favor the government's controlling all of the railroads to be constantly increasing.

Tuesdays and Fridays have been set for regular cabinet meetings.

The Senate has re-arranged its standing committees, but few changes were made other than those necessary to make places for the new members. The Canadian question is one that will not go down. It is continually cropping out in unexpected places, for instance, when Sen. Payne proposed in the Senate that the select committee on relations with Canada be dropped as being usurpatory of the functions of the executive, he stirred it up in a lively manner. Sen. Hoar in defending the existence of the committee, said: "It is useless to be blind to the fact that there is a large and growing body of men in Canada that desire annexation to the United States." Sen. Cullum favored the committee and hoped that its investigations would result in making the two countries one. Sen. Sherman favored the committee and thought that if the countries remained separate, peace would be almost impossible. Sen. Edmunds and Hale were willing to vote for the committee, but did not propose to commit themselves as favoring annexation. Senator Morrill had no objection to the committee, but he regarded the present agitation as preposterous, and did not believe Canada had ever been more loyal to Great Britain than at the present time. What the opinions of the democratic senators were, remains a secret.

Write Him a Postal Card.

Those who desire that the half-fare excursion from this place to Detroit during Floral Exhibition week, April 2, 3, 4 and 5, should be so arranged that it will not be necessary to return the same day, but allow of a two or three days stop-over, should send a postal card to this effect at once to Mr. George E. King, the secretary of the R. R. Passenger Agents Association, at his office in the Adams Building, Chicago, Ill. This 4-days exhibition will be the most notable local event that has ever occurred in Michigan. It is for the benefit of 21 of the city charities, who will share equally in the results.

Mr. McIntyre talks of selling his farm and going as sailor on the lakes. This is one of the best farms in Crawford county, and any one wanting such a place had better call on the owner. Mr. M. is an old seaman and believes he would like such a life better than farming.

PEDAGOGUE.

The Watson county option bill was favorably reported by the house committee yesterday, and we hope it will not be long before it becomes a law. Great care should be taken lest amendments be added to which the official interpreters of the constitution might object. The principle recognized in this bill is the right one, and should prevail. The dominant political party of the state stands squarely committed to it and it has many friends in the opposition ranks.—Detroit Tribune.

AN OPEN QUESTION.

Is Harrison a Descendant of Pocahontas?
It is popularly believed that President Harrison is descended from Pocahontas and from the Parliamentary soldier and gentleman, Thomas Harrison, who was executed in 1606.

Pocahontas, daughter of Powhatan, married a friendly Englishman, John Rolfe, a planter of Virginia, who was not a knight. The story of how she saved the life of Captain John Smith, who had been captured and condemned to death by her father—how she, on several occasions, made known to the settlers their danger when about to be attacked—she well knew, and it is well known with the early history of America. Her subsequent marriage with John Rolfe, an Englishman, removed to England, where a son was born, from whom numerous wealthy families of Virginia claim descent—this is the basis of the opinion that President Harrison is one of her descendants.

Whether this be true or not, it is, however, well known that President Harrison is a descendant of a noted family, a descendant alike in peace and war. The name of Harrison is one of the most widely known in the history of America, and it is well known that the name of Harrison is one of the most widely known in the history of America.

TASCOTT NOT CAUGHT YET.

An Eight Thousand Mile Chase After a Man Proven Fugitive.

A. J. Stone and party, who for three weeks scoured the Canadian dominion and a number of Western States and Territories in search of William B. Tascott, the alleged murderer of Amos J. Snell, have returned to Chicago empty-handed.

Our information came first from Minneapolis, Minn. We were certain from descriptions that the young man was Tascott, and we lost no time in going to Winnipeg. The description of the young man working in a tile shop tallied exactly with that of the fugitive. We were close on Tascott's heels, and he was expected to be in the place where we expected to find him.
